# The power of love

Have you ever wondered how it is possible that a small village bar, which opened its doors in 1954, has reached its 70th anniversary as a national and international landmark of Ibiza?

The answer is as simple as it is complex: it is the power of love that has brought us here. First, the love of a couple: that of the farmer and carpenter Juan Marí Juan and the young Francisca Juan Juan, who not only laid the foundations of Bar Las Dalias but also founded a family that, to this day, remains the soul and pillar of the market. Then, the love for the island from the large Las Dalias family, made up of artisans and market vendors, as well as the restoration and administration team. Their passion and love for everything they do preserve the spirit of Ibiza in the heart of Sant Carles.

## 70 years of tradition, culture, and encounters

Las Dalias opened its doors as a road bar in 1954. Today, it embodies the creativity of the other Ibiza, the 'shopping' foreign to the big brands, The ode to traditional gastronomy and a strong commitment to music in all its meanings, forms and registers.

In 2019 we celebrated our 65th anniversary, which is why various actions were carried out, such as the renovation of the mythical road bar, becoming Las Dalias Café, or the artistic project led by the international urban artists "Boa Mistura" responsible for dressing the facades of Las Dalias with Life and Love.

phase of improvement and remodeling began, in which the party room was transformed into AKASHA | Las Dalias Club. In 2024, the second phase took place, transforming the old restaurant into PaloSanto.
